About Us

At Minicabs, because of our promptness, politeness, and excellent value for money, a significant portion of our passengers routinely choose us as their go-to source for London minicabs service, supporting our claim that we provide the best service available.

We have been in business for over 20 years and in that time we have honed our skills and business to create a great minicabs company. In addition, we have increased the number of minicabs so that we are able to meet everyone's needs in our area. We intend to continue to progress in the future by continuously improving our services through meeting our customers' needs. The release of our app for Apple and Android users is a good example of this.

Our success is a result of a few factors that we hold in high esteem, the first of which is the fact that we consistently work to provide all of our passengers with the best value for their money. This doesn't simply imply that we keep our prices as low as feasible, it also implies that we go above and beyond what is typically expected. Of course, we always offer pristine vehicles and courteous drivers, just like any reputable minicabs business would. However, unlike other minicab services, we go above and beyond by carrying your luggage for you, ensuring that your kids get to school, and generally assisting you in any way we can.

Book your minicab by using any of three payment options, "Cash, Card, and PayPal"

Booking success ratio is about to reach 100%. That's why we are called No 1 Company.

Being reliable is another factor in our success. We strive to have our drivers arrive at your location promptly because we realise that journeys to the airport or school runs can be stressful. This way, you can enjoy a calm and stress free journey and arrive at your destination on time.
