IOCI Jodhpur – Where Compassion Meets Excellence in Cancer Surgery and Care

Being told that you or someone you love has cancer is often met with fear, uncertainty, and never-ending questions. At **IOCI Jodhpur**, we believe patients deserve more than the latest medical treatment; patients need hope, healing, and a purpose to fight once more. As one of the top cancer hospitals in India, IOCI Jodhpur represents integrity and innovation.

The IOCI offers rapid, extensive, and transformative cancer care, all under one roof, with the support of life-changing technology, world-renowned oncologists, and a passionate, dedicated staff that has changed the lives of countless patients. At IOCI, we believe cancer can be cured with science, expertise and heart.

Surgery for Liver Cancer - Accurate Treatments that Save Lives

While liver cancer is amongst the more complicated cancers to treat, the advancements in medical therapy and the skills of the surgical team can lead to a positive outcome. At IOCI Jodhpur, our surgical experts have a wealth of experience with **surgical treatment for liver cancer** and use of the most modern techniques that provide precision and safety in treating liver cancers.

Every case of liver cancer is different, and we take that into account. Our entire team creates a surgical plan tailored to each patient based upon their individual health, size of the liver cancer and liver health. By utilizing sophisticated imaging and surgical techniques, we endeavor to remove the liver cancer while preserving as much of the non-diseased liver as possible.

Our surgical teams work alongside oncologists, radiologists and pathologists to deliver comprehensive and coordinated care every step of the way, from diagnosis to recovery.

Gallbladder Tumor Surgery & Therapy Specialist - Recovery and Hope

Although gallbladder tumors can be difficult to identify for early diagnosis, once identified, the appropriate assistance is important in the management of treatment. **Experts in Gallbladder Tumor Surgery & Therapy** at IOCI Jodhpur has years of experience in the management of pediatric and adult hepatobiliary oncology and treatment as their primary focus.

Our surgical team carries out more straightforward, open operations as well as minimally invasive operations to remove gallbladder tumors very safely and minimally effectively. For early-stage gallbladder tumors, we do an operation in combination with targeted therapy. For stage III gallbladder tumors, we will do all of the above, mixture chemotherapy, and surgery.

At IOCI we fundamentally believe every patient should receive compassion and care and the patients should be confident whom they receive care from and their treatments, all from practitioners who truly believed they cared.

Expert in Oesophageal Tumour Surgery & Therapy – A New Path to Recovery

Oesophageal (food pipe) cancer impacts one of the vital organs of our body and can make swallowing difficult, affecting daily living. At IOCI Jodhpur, our **Expert in Oesophageal Tumour Surgery & Therapy** offers the latest techniques in surgical and therapeutic care, allowing patients to recover strength to return to functional living.

Using promising minimally invasive surgery techniques and robotic-assisted surgery, patients can hope for faster recovery with fewer complications. Our surgeons work as a team with an anaesthetist, nutritionists and physiotherapists to apply a holistic approach to recovery.

At IOCI Jodhpur, we do not only care for oesophageal cancer, but we care for our patients to return to living with dignity and hope.

Expert in Gastric Cancer Surgery and Therapy – Thoughtful, Comprehensive Care

Gastric cancer demands expertise and timely treatment. At IOCI Jodhpur, we pair cutting-edge **expert in Gastric Cancer Surgery and Therapy** a combination of technical surgery and advanced therapy for best possible outcomes.

Our expert team is trained in modern laparoscopic surgeries and robotic surgeries, creating a unique experience for patients with gastric cancer when it comes to resection and follow-up. These techniques allow generaous resection of tumors with less pain after surgery and shorter lengths of stay. Each incision in the gastric wall is often paired with chemotherapy or radiation therapy according to the stage of disease.

But, IOCI prides ourselves on our more compassionate aspects of care. Every patient is greeted and coached with empathy and an understanding of what it is like to be a patient – including follow-up care after surgery.

We think medicine heals the body — but empathy heals the soul.

Reasons for Choosing IOCI Jodhpur
