Diploma in Nursing Care Assistant

Launch your rewarding healthcare career at DPMI Agra with comprehensive training in patient care and clinical excellence.

Made with GAMMA

What is a Nursing Care Assistant?

Nursing Care Assistants—also known as General Duty Assistants, Nursing Aides, or Bedside Assistants—are the backbone of patient care in healthcare facilities. They provide essential daily support that ensures patients' comfort, safety, and well-being.

These dedicated professionals work hand-in-hand with nurses, doctors, and healthcare teams in hospitals, clinics, and long-term care facilities, delivering compassionate care when patients need it most.

Patient Hygiene & Comfort

Assisting with bathing, grooming, and daily living activities

Health Monitoring

Recording vital signs and observing patient conditions

Safety & Support

Ensuring patient safety and providing mobility assistance

Made with GAMMA
