ABOUT US

Established in 2023 in Dubai, HESS is a trusted provider of comprehensive health, safety, sustainability, and professional outsourcing solutions. We help businesses address regulatory requirements while strengthening workplace safety, environmental responsibility, and operational efficiency. With a strong understanding of Dubai's dynamic business environment, our experienced team develops customized strategies based on each organization's specific requirements and objectives. Our services focus on identifying potential risks, improving HSE frameworks, supporting compliance, and enhancing overall business performance. By combining innovative approaches, practical expertise, and recognized global best practices, HESS helps organizations work toward their health, safety, and environmental goals effectively. We are committed to promoting a strong culture of safety and sustainability, enabling businesses to create healthier, safer, and more responsible workplaces. Through professional guidance and tailored solutions, HESS supports organizations across Dubai and beyond in achieving sustainable operational excellence.

HSE RISK MANAGEMENT SERVICES UAE

At HESS, we provide professional HSE risk management services in the UAE, helping businesses identify workplace hazards, assess potential risks, and implement effective safety measures. Our experienced team conducts detailed assessments covering work environments, equipment, facilities, storage areas, emergency procedures, fire protection systems, and other factors that may affect workplace safety. Based on our findings, we provide practical recommendations designed to strengthen risk control, emergency preparedness, and overall health and safety performance. Our services support organizations in developing safer working environments while helping them address applicable health, safety, and regulatory requirements. We work with businesses across Dubai and the UAE, tailoring our approach to their specific operational needs and risk profiles. With a focus on professionalism, prevention, and continuous improvement, HESS helps organizations proactively manage workplace risks while protecting employees, assets, and business operations.
